SUMMARY

I help enterprise organizations commercialize AI systems that sense, reason, and act in the physical world. 18 years building GTM architectures for Physical AI, Industrial Autonomy, Agentic AI, OT/IT convergence, and predictive operations.

Creator of the Industrial Autonomy Stack, Physical AI Cockpit, and GTM Architecture — Sense → Reason → Act. Author of the GTM Library — eight executive briefs on how industrial autonomy gets bought.

Impact: \$150M+ revenue influence • 42% win-rate lift • 38% market share growth • 40% sales cycle reduction • \$24M net-new pipeline • 80% promotion rate

CORE COMPETENCIES

Physical AI GTM • Industrial Autonomy • Agentic AI • Category Creation • OT/IT Convergence • Digital Twins
Pipeline Generation • Enterprise Adoption GTM • Sales Velocity • SaaS & PLG Economics • Competitive Intelligence

EXPERIENCE

Independent Consultant — Senior Director, Product Marketing Physical AI & Agentic AI GTM advisory for enterprise AI teams. - Architect GTM frameworks for autonomy platforms. - Align product, sales, and engineering for adoption GTM. - Drive category narratives across executive briefings and industry panels. Frameworks: Autonomy Stack • Physical AI Cockpit • Sense → Reason → Act • OT/IT GTM • Agentic AI GTM	2024 – Present
UST — Senior Director, Product Marketing \$9M new revenue • 30% YoY • CAC -15% • Conversion 3x • \$10M new TAM	2022 – 2024
Uptake — VP, Product Marketing Sales cycle -40% • Engagement +35% • \$2M spend eliminated • ROI +15%	2021 – 2022
Dell Technologies — Senior Director, Product Marketing Win-rate +42% • Market share +37% • NPS +25 • 5,000+ users onboarded	2016 – 2021
Schneider Electric — Senior Director & Director, Product Marketing DCIM category creation • \$75M revenue in 18 months • 38% share • \$32M growth • 45% adoption	2006 – 2015

PUBLICATIONS & SPEAKING

Silicon Meets Steel • Physical AI Cockpit • Autonomy Stack • Agentic AI GTM • GTM Library
Industry panels: Physical AI, autonomy commercialization, OT/IT convergence
