OT/IT Convergence — GTM Executive Summary

The Strategic Foundation of Industrial Autonomy

Industrial enterprises are collapsing the divide between OT and IT. This convergence enables Digital Twins, Physical AI, predictive operations, and cyber-physical resilience.

Why It Matters

- Real-time decision cycles
- Reduced downtime
- Improved throughput
- Stronger safety
- Faster AI deployment
- Enterprise autonomy

GTM Strategy

1. **Lead with Operational Pain**
2. **Translate to IT Architecture**
3. **Elevate to CFO Economics**
4. **Expand Across the Facility**

Buyer Personas

- COO / VP Ops
- CIO / CDO
- CFO / CEO

What Changes When OT and IT Align

- Shorter evaluation cycles
- Stronger buyer engagement across personas
- Larger, multi-stakeholder deals
- Higher retention through shared success criteria
